

MOMENTS^{1.0}
Exceptional lighting for extraordinary people.

pvdconcept[®]

The origin of **pvd concept.**

Pvd concept was established in 1986 and initially found success with architects and lighting businesses in the Benelux region.

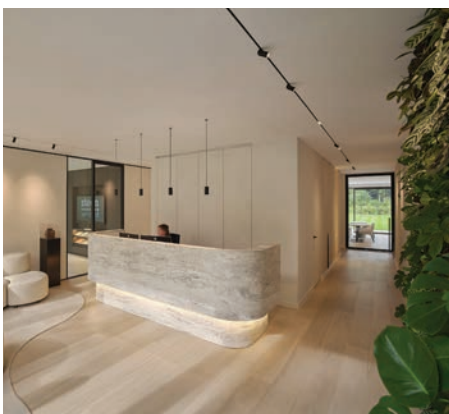

Over the years, the company has grown into a brand that is truly loved by the general public, allowing it to expand into various new countries.

The youngest son, Tobias van Daele, joined the company in 2013, followed by the oldest son, Dieter van Daele, with the goal of further establishing the company as a manufacturer of indoor and outdoor lighting on the international stage.

Pvd concept now operates in over 50 different countries.
